

ProTowWash® – Transport Skid with Bulk Water Tank

BOLT and Go Convenience! No need for costly or custom installation jobs. The water tank and power washer are already securely attached to the tank skid frame. Simply bolt to the floor. This versatile Tank Skid allows washing at remote sites where a water supply may not be available or convenient. The tank skid's compact design allows several options for mounting: between the wheel wells of a standard pick-up, mounted side-by-side or across on an 8' wide flatbed, or installed in an enclosed trailer. An added advantage is the convenience of being able to unbolt and remove the skid to free up your trailer or truck. Your dealer can assist with mounting optional equipment to your truck as needed.

TECHNICAL DATA	T185T	T270T
MACHINE CAPACITY	SC, SCU Series	SS, SC, SCU Series
MOUNTING	(8) ½" Bolts or tie down slots	
LIFTING	Easy Access Fork Lift Slots

WEIGHT / DIM.	125# Empty (No Machine) 71" x 48" x 36"	(need) Empty (No Machine) 80" x 48" x 45"

Featuring:

- ✓ **Remote Cleaning:** Allows washing where a water source may not be available or convenient.
- ✓ **Versatile Compact Design:** Slides easily into the bed of a standard pick-up truck (long bed pickup for T270T) and can be removed from truck when truck bed is needed for other uses.
- ✓ **Inlet Plumbing:** System engineered to match up to the pressure washer and prevents possible pump damage from cavitations or contamination.
- ✓ **Portability:** Forklift clearance and access slots for mounting.

Options...

Pump seal saver bypass (APS50)-installed when ordered with Hydro Tek Skid, Hose reel options with SS skid (AR100, AR151)
